Bright yellow, red and orange,
The leaves come down in hosts;
The trees are Indian princes,
But soon they'll turn to ghosts.
-William Allingham

From the sewing desk

October! My favorite time of the year! When the leaves are changing, the holidays are just around the corner. Halloween is my favorite holiday during the beautiful Autumn season! It can be so creative, and so much fun, whether you are a kid or not! It's fun to decorate and plan parties! We have a few scary decorations for your home, and cute Halloween items too! See some of our creative designs in this Fall newsletter. For example, little Bean Witches are the cutest witches you have ever seen. See photo in this newsletter. There are Halloween and Christmas faux antiqued postcards decoupaged onto a wooden plaque. And finished with an aging process. They are handcrafted by Kathy.

New this year are my antique look glass tinted bottles. A beautiful and unique look for decor. The glass is tinted with food coloring and decoupage glue. For a translucent look. With a distressed French label added. Also purple and green haired Bean Witches are back. Don't believe anything they say as they are full of BEANS! Enjoy the cool Fall nights, and keep the scary in your Halloween decorations!
