Desert Valley Academy is a private four-year college to be built in Moapa Valley. The college will offer an effective and focused academic program of higher education merged with powerful moral and ethical standards to prepare young people for service and leadership in their communities, their nation, and the world. Desert Valley Academy will produce graduates capable of competing with the best in their fields.

The values and standards of the LDS church will drive the culture of Desert Valley Academy, where students will be challenged and supported to become men and women of wisdom and character through core values of scholarship, discipleship, accountability, enthusiasm, and refinement.
